INTRODUCTION.

1305027

IN the Introduction to "An Index to the Wills and Inventories now preserved in the Court of Probate at Chester, 1621 to 1650," the general arrangement of the wills in the Probate Court at Chester and the method by which that Index had been drawn up, will be found stated at some length. In this volume that Index is continued and brought down to the year 1650, after which date, for about nine years, no wills are now preserved at Chester, and it seems probable that none were proved there during that period, 1651—1659. Why the year 1650 should have been specially selected at Chester, as the last year for some time, when wills were proved there, is difficult to explain, but it arose, at least in part, from the unsettled state of the country after the Civil War, and the abolition of Episcopacy. As early as Nov. 5, 1644, the House of Commons passed an Act appointing Sir Nathaniel Brent, Knight, doctor of law, and his deputies, to the office of Master or Keeper of the Prerogative Court of Canterbury, and further enacted that no probates, letters of administration, &c., taken out since May 3, 1643, should be legal unless so taken out before the said Sir Nathaniel Brent or his deputies. In 1646, by an Act passed on October 9 in that year, "the name, title, stile, and dignity" of all archbishops and bishops in England and Wales was taken away, and all their lands, rights, tythes, advowsons, &c., were confiscated. It would appear, however, that the proving of wills and the granting of administrations in the Bishops' Courts were still allowed,

either as a matter of local convenience or by an oversight on the part of the Parliament. At any rate this was the case at Chester, as wills continued to be regularly proved there till 1650, in spite of the deprivation of the Bishop and the confiscation of his lands. The country, however, being in so disturbed a state, the number of wills proved each year was smaller than in previous years.

By an Act of Parliament dated 8 April, 1653, it was enacted "That Sir Anthony Cooper, Baronet, and divers other persons named in the Act or any five of them shall be and are appointed Judges for the Probate of Wills and Testaments, and the granting of Administrations in all and every the counties of England and Wales, and shall put in execution all such further powers and authorities touching the same with the incidents and appendants thereupon in the provinces of Canterbury and York, that Sir Nathaniel Brent lawfully did or might have done in the late province of Canterbury. And they or any five of them may issue out commissions, &c., and proceed to hear and determine all matters touching Wills, Administrations and Inventories and all the incidencies, emergencies, and dependencies thereupon in all places in England and Wales as Sir Nathaniel Brent lawfully might have done in the late province of Canterbury." As this Act was only to continue in operation till October 1, 1653, on December 24, 1653, it was ordered to remain in force till April, 1654, and on April 3, 1654, it was "ordained by the Lord Protector with the advice of his Council" that it should remain in force till further order. The moneys arising from the fees, &c., were to be applied in support of the navy.

The above Act of the 8th April, 1653, virtually put an end to all the local Courts of Probate, and all wills had thenceforth to be proved and letters of administration to be taken out in the Prerogative Court of Canterbury; and it was not till after the restoration of Charles II., in 1660, that this Act was done away with, and wills were once again allowed to be proved, as heretofore, in the various Bishops' Courts throughout the kingdom.

At Chester, however, as already stated, no wills proved there between the years 1651 and 1659 inclusive can now be found. Hence it became necessary to ascertain what wills were proved, &c., in the Prerogative Court of Canterbury between those years, and accordingly in an Appendix to this volume will be found

(I.) A List of the Lancashire and Cheshire Wills, proved in the Prerogative Court of Canterbury, 1650—1660;

(II.) A List of the Lancashire and Cheshire Administrations, granted in the Prerogative Court of Canterbury, 1650—1660.

These lists are taken from the official Calendars at Somerset House, London, where the transcripts of the wills are now preserved. In these Calendars, however, the name of the counties alone are given, without any information as to the precise locality, where the testator was living, and this particular information can only be obtained by a thorough examination of the Registers or volumes into which the wills are transcribed. When it is recollected that there are no less than 92 large folio volumes of transcripts between the years 1650 and 1660, the time taken up in making such a search would have been very great and the expense more than the Council of the Record Society were prepared to undertake. It should also be mentioned, in case of any particular will being urgently sought for, that it is possible that there may be a few wills copied into the Registers which have been accidentally omitted in the official Calendars, but these cannot be very numerous.

In the Introduction to the List of Wills at Chester from 1545 to 1620, already referred to, will be found a complete list of the wills transcribed into vols. I. and II. of the Enrollment Books in the Bishop's Registry, Chester, as well as a list of those printed by the Chetham Society. The wills there mentioned, which come within the period of time embraced in this book, may be recapitulated here as follows:—

(1) Wills Transcribed in the Enrollment Books in the Bishop's Registry, Chester, and relating to the period 1621—1650.

Brereton, William, of Ashley, esquire, 1630 proved 1630 ... ... Vol. II., p. 373†
Ireland, Sir Gilbert, of the Hutt, knight, 1625.. Vol. II., p. 371b†
Jones, Henry, of Middleton, co. Lancaster, 1635 Vol. II., p. 378

(2) Wills Printed by the Chetham Society (Vols. xxxiii., li., and liv.) and relating to the period 1621—1650.

*Brereton, William, Lord, of Brereton, co. Chester, 1630 pr. 1630
*Bury, Henry, of Bury, clerk, 1634 pr. 1636
*Butler, Henry, of Rawcliffe, co. Lanc., esquire, 1619 pr. 1621
*Ditchfield, John, of Bold, co. Lancaster, 1643-4
*Fitton, Dame Anne, of Gawsworth, co. Chester, widow, 1643-4
*Fitton, Edward, of Chester, gentleman, 1643 pr. 1643
Ireland, Thomas, of Bewsey, in the parish of Warrington, co. Lancaster, esquire, 1638-9 pr. 1639
*Legh, Dame Dorothy, of Worsley, co. Lancaster, widow of Sir Peter Legh, of Lyme, knight (with inventory), 1638-9
*Lightbowne, James, of Manchester, merchant, 1621
*Standish, Elizabeth, of Standish, co. Lanc., widow, 1637 pr. 1637
Standish, Captain Ralph, 1637 pr. 1637
Towneley, Lucy, of Shacklehay [co. Lanc.], widow, 1621 pr. 1621
Walmsley, Thomas, of Banister Hall in Walton-le-Dale, co. Lancaster, gentleman, 1637 pr. 1637
Worsley, Charles, of Manchester, yeoman, 1641 pr. 1641

Those wills to which an asterisk is affixed are still to be found in the Probate Court at Chester; but those to which no mark is placed cannot now be found either at the Probate Court or at the Bishop's Registry, and it is a source of congratulation that they have fortunately been preserved in print. The Messrs. J. and G. J. Piccope, by whom they were transcribed (as already pointed out in the Introduction to the previous List of Wills, 1545 to 1620), examined a great many other wills at Chester, and either copied them in full or made abstracts of them. Their MSS. are now preserved in the Chetham Library, Man-

† It is very noteworthy that in both these cases, whilst the original wills are not now to be found in the Probate Court, the inventories of William Brereton, esquire, and Sir Gilbert Ireland, of the Hutt, are still preserved there, and are duly entered in this Index. That of the latter was made out in 1628, his will probably being proved then; and in 1632 the accounts of the executorship were returned into the Court by the Lady Barbara Ireland, his widow and executrix.

chester, and in Vol. 10 will be found brief abstracts of the following wills relating to the period 1621—1650, the originals of which cannot now be found at Chester:—

In concluding this Introduction I can only again refer to the indebtedness of the members of this Society to Sir James Hannen, President of the Probate Division of Her Majesty's High Court of Justice, for permission to print this Index, and to those gentlemen who, as already mentioned in the Introduction to the previous List of Wills, 1545 to 1620, have in various ways assisted in making it as complete as possible. I hope that the Indices to the Wills at Chester, subsequent to 1660, will be printed in due course; and in the meantime it will interest the members of this Society to learn that Sir James Hannen has kindly granted permission for a List of the Lancashire Wills, contained amongst the wills proved at Richmond, in Yorkshire, and now preserved at Somerset House, to be printed by this Society, and the same is now in preparation.

J. P. EARWAKER.

PENSARN, ABERGELE, NORTH WALES,
JUNE, 1881.

The following points are commended to the attention of those using this book :—

1. This list is a very careful transcript of the MS. Index now in use at the Probate Court, Chester, compiled from an examination of the original wills, undertaken some twenty or thirty years ago by the Record Keeper there. That Index, however, is a chronological one, whilst in this the names have been arranged alphabetically.

2. As already explained in the previous volume, many of the errors incident to the compilation of such a MS. Index, chiefly consisting of mis-readings of the names of persons and places, have been corrected in this list, but others have been unavoidably left, as it was not possible to revise them without a fresh examination of the wills themselves—a task involving great trouble and expense. It is, however, believed that these errors are neither very numerous nor important.

3. In some cases inventories appear to have become detached from the original wills, and have so been placed in different bundles and indexed under different years. This list, however, being an alphabetical one, such cases will be speedily detected, and it will be easy to replace the inventories in their proper places.

4. Where the word "Inv" *occurs, it signifies that the deceased had most probably died intestate, and that an inventory of his goods had been filed and administration granted to his representatives. Where the word* "Admon" *occurs it shows that an administration bond had been filed as well. In all other cases the wills themselves are extant, either with or without the accompanying inventories.*

5. It is to be noted that in the Probate Court of Chester the original *wills up to 1838 (and not official transcripts, as in many other Probate Courts) are those shown to enquirers.*

6. Owing to the original spelling of the wills having been followed in the MS. Index, and allowing for possible mis-readings, enquirers are particularly desired to search for any name bearing a resemblance to that they are looking for, as for example Leigh for Legh or Lee, Newall for Nowall, Houghton for Haughton, &c., &c. As far as possible this has been indicated by cross references in this list. Words now spelt with an i *then frequently had* y.

7. This list extends from the year 1621 to 1650 inclusive, and is in continuation of the "Index to the Wills at Chester, 1545 to 1620," *already published by this Society. The later years will follow in subsequent volumes. This volume alone, including the two Appendices, is an index to nearly fifteen thousand wills.*

The remarks made opposite page 1 with regard to the possible mis-reading of the names of persons and places apply with equal force to the following lists. Care has been taken to correct any obvious blunders; but it cannot be doubted that the examination of the wills or their endorsements, by persons not familiar with the local names, has led to many mis-readings, and hence those using this Index for any particular name or names are requested to look for names bearing a resemblance to those in which they are specially interested. Thus Lee for Legh, Haworth for Howorth, Poole for Peele, and so on.

ADDENDA ET CORRIGENDA.

THE following may be taken as a specimen of the character of the additions and corrections to which this volume is particularly liable. As explained in the Introduction to the Index of Wills at Chester, 1545 to 1620, this book is a copy of the MS. Index now in use at Chester, which was compiled in a very hurried manner by a gentleman not very conversant with the old handwriting, in addition to which the bad character of the writing has in many cases rendered it very difficult to decipher. These corrections, &c., have been obtained by the editor from various sources, and are simply printed here that those who may use this volume may insert them in their proper places. Those who may take the trouble to compare this volume with the MS. Index will see that many similar corrections have been made as these pages were passing through the press. The corrections, additions, &c., are printed in italics :—

§ These wills were accidentally omitted, and only discovered when too late to be inserted in their proper places in the text.
